overseas market with new challenges

SANGWON TEXTILE

I.T.Y span knitwear fabric
anufacturing·dyeing and processing

Welcome to Sangwon Textile!

We sincerely thank everyone who visited Sangwon Textile.

Sangwon Textile has been trusted and loved by customers through transparent and clear business management. After establishing Sangwon Textile on April 3, 2001 at 11, Gukchaebosang-ro 6-gil, Seo-gu, Daegu, Korea, we have grown to a company with annual sales of 3 billion won each year by

exporting textiles (dyed and printed) to the US, Brazil, Turkey, Central and South America, Japan, and Europe, and achieved annual sales of 6 billion won by 2021, while focusing on knit fabric manufacturing. We have fostered Sangwon Textile as a corporate representative of Korea since its establishment through endless R&D that has made us grow and advance time and again, and met the needs of customers by innovative business management leading

the best quality of the kind based on our know-how accumulated over a long period of time. We are making a great contribution to industrial development based on years of experience, human resources with cutting-edge technology, and effective production and business systems, and pursuing a deep trust with the principle of offering the best quality and service always thinking from the customers' points of view. In the future, we will take the lead in 100% customer satisfaction, keep our promises like life itself, and thoroughly manage our service putting our customers first. In addition, we promise to fulfill our responsibility to provide the tasks given to us. Thank you.

A company that pioneers a wider overseas market with new challenges

Core product (ITY Span knit fabric manufacturing · dyeing and processing) ●●●

By using only 100% domestic yarns and threads from manufacturing to developing various designs and researching new ideas and sample designs, we can provide various fabrics to buyer companies with special processing techniques. We use only 100% domestic spandex threads to produce A-grade fabric with excellent elasticity while paying great attention to fabric quality.

We specialize in fabric dyeing and processing, new printing designs development and research ideas to create the best products. We also provide top-notch service by paying special attention to packaging to prevent products from being affected by various problems such as contamination, etc.
